## 2.- FUNCIONAMIENTO

1º Link a la plataforma: [www.sangva.svisual.org](https://sangva.svisual.org)

The screenshot shows a web browser window with the address bar displaying "Es seguro | https://sangva.svisual.org". The page header includes the logo of the Generalitat Valenciana and the text "GENERALITAT VALENCIANA Conselleria de Sanitat Universal i Salut Pública". Below the header, there is a banner with a photo of a person in a surgical mask and the text "Servicio de videointerpretación en LSE". The main content area features a large video player window, a chat box with the text "Chat" and "Introduce tu consulta", and a button labeled "ENVIAR". To the right of the video player, there are icons for a phone, a red phone, and a blue speech bubble, with the text "Servicio ofrecido por SVisual" above them. At the bottom of the page, it says "Aplicación web optimizada para navegadores WebRTC" and the SVisual logo.

## 2.- FUNCIONAMIENTO

2.º Pinchar sobre el botón verde de llamada

The screenshot shows a web browser window with the address bar displaying "Es seguro | https://sangva.svisual.org". The page header includes the logo of the Generalitat Valenciana and the text "GENERALITAT VALENCIANA Conselleria de Sanitat Universal i Salut Pública". Below the header, the main heading reads "Servicio de videointerpretación en LSE". The central content area features a large video player on the left and a control panel on the right. The control panel includes a blue microphone icon, a green call button, and a red end call button. A large blue arrow points to the green call button. Below the video player is a chat section with a text input field labeled "Introduce tu consulta" and an "ENVIAR" button. At the bottom of the page, it states "Aplicación web optimizada para navegadores WebRTC".

## 2.- FUNCIONAMIENTO

**3º Aparecerá la persona vídeo intérprete para comunicarse con la persona sorda**

The screenshot shows a web interface for a video interpretation service. At the top, a grey header reads "Servicio de videointerpretación en LSE". Below this, there are two video windows. The left window shows a woman with her hand raised, and the right window shows a man. Below the video windows are icons for a microphone, a green telephone handset, and a red telephone handset. A chat window is located at the bottom, containing a text input field and a "ENVIAR" button. The chat history shows a conversation between "USUARIO" and "PATRICK WINTER".

**Ventana para Vídeo-Intérprete**

**Ventana para la Persona sorda**

**Posibilidad al mismo tiempo de usar el texto del chat como herramienta de comunicación**

## 2.- FUNCIONAMIENTO

4º Pinchamos sobre el botón de color rojo para finalizar la llamada

The screenshot shows a web browser window with the URL <https://sangva.svisual.org>. The page header includes the logo of the Generalitat Valenciana and the text "Servicio de videointerpretación en LSE". The main content area features a video call interface with a large empty video frame on the left and a control panel on the right. The control panel includes a blue microphone icon, a green phone icon, and a red phone icon. A blue arrow points to the red phone icon. Below the video frame is a chat area with a text input field labeled "Introduce tu consulta" and an "ENVIAR" button. At the bottom of the page, it says "Aplicación web optimizada para navegadores WebRTC" and includes the SviSud logo.
